- Class X , Percentage: 92.60

Skills Summary

Languages: Java, Python, Javascript, SQL, Data Structure And Algorithms

Frameworks: ReactJS, ExpressJS, NodeJS

Database: MySQL, MongoDB

Other Tools: GIT/Github, HTML, CSS, Bootstrap, Jupyter Notebook, Postman

Projects

- **Job Recommendations System:**

A Job recommendation system to suggest job profile to the Job Seeker. The project has user authentication to login into the system. Used RapidAPI to fetch jobs and display data to the user. Also user can upload their resume and System scrap the resume and suggest the jobs according to the resume profile. Technologies Used are HTML, CSS, Javascript, NodeJS, ExpressJS and MongoDB

- **AI-powered data Quey Interface:**

Built a Chatbot using MERN stack and Google's Gemini API to get data from the database using the query entered by the user. Use natural language processing using Gemini to enhance the user experienced.

- **Weather App**

Build a web-based weather app with real-time forecasts and geolocation features. Utilized API OpenWeatherMap to fetch and display accurate weather data.
